

# KEGG\_2021\_Human

Enriched terms

Human immunodeficiency virus 1 infection

Salmonella infection

Th1 and Th2 cell differentiation

Viral protein interaction with cytokine ...

T cell receptor signaling pathway

Fluid shear stress and atherosclerosis

TNF signaling pathway

Lipid and atherosclerosis

NOD-like receptor signaling pathway

Human T-cell leukemia virus 1 infection

Pathways in cancer

Inflammatory bowel disease

Osteoclast differentiation

Th17 cell differentiation

Cytokine-cytokine receptor interaction

Apoptosis

NF-kappa B signaling pathway

IL-17 signaling pathway

Leishmaniasis

Measles

6e-06

4e-06
